

IOA No 11257

**AQIS APPROVAL OF CHEMICAL COMPOUND FOR USE IN EXPORT
REGISTERED MEAT ESTABLISHMENTS**

COMMONWEALTH OF AUSTRALIA
EXPORT CONTROL ACT 1982
EXPORT MEAT ORDERS

INSTRUMENT OF APPROVAL FOR CHEMICAL COMPOUND

I, Dean Traynor, delegate of the Secretary, pursuant to order 128 of the Prescribed Goods (General) Orders hereby approve for use in export registered meat establishments the chemical compound known as **MAKI BLOCK WEATHER-PROOF RODENTICIDE** which is supplied by LIPHATECH S.A.S. Subject to the conditions specified in the following Schedule. Please note this IOA is only valid at export registered meat establishments. When using the above product all manufacturer's recommendations must be observed.

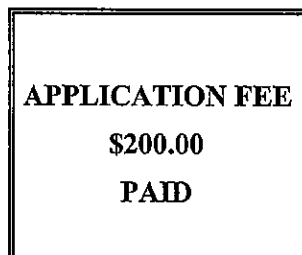

SCHEDULE

The chemical compound is approved under **Category 15 Pesticide Type C**. This compound must not be used for any other purpose within an export registered meat establishment.

- The chemical compound shall be manufactured, labelled and contain directions for use in accordance with the details supplied by the applicant in the application for approval dated 30th January 2008.
- The person to whom this approval is granted shall notify the Secretary of any proposed alteration of formulation, labelling or directions for use of the chemical compound, and shall not effect any such alterations without receiving notification of approval from the Secretary.
- This approval is not to be construed as an indication that the Secretary has tested the efficacy of the chemical compound nor as an endorsement of the chemical compound.
- The person to whom this approval is granted shall not use the approval in any form of advertising or on any label unless the wording or display has been approved, in writing, by the Secretary.
- This approval may be revoked at any time
 - (a) if any of the conditions made by this approval are not complied with; or
 - (b) if the circumstances in which this approval was made change.
- Unless revoked, this approval will expire automatically on the 5th March 2013.

DATED THIS Fifth day of March 2008

Dean Traynor

Australian Government

Australian Quarantine and Inspection Service

APPLICATION FOR CHEMICAL APPROVAL

I refer to your application(s) seeking approval for the use of chemical compound(s).

Your application(s) has/have been approved and the appropriate Instrument of Approval(s) (IOA) is/are attached.

In particular your attention is drawn to the conditions set out in the Schedules of the Instrument of Approval.

Please note that chemicals are only approved for use at export registered meat establishments. Other export commodity orders such as the Processed Foods Orders (dairy, fish etc) do not call up the AQIS chemical approval system. Consequently, the Instrument of Approval is only valid at export registered meat establishments.

Application to alter the Company Name or address, chemical formulation or details on Labels of AQIS approved chemicals.

Companies wishing to alter the company name or address, chemical formulation or label details of an AQIS approved chemical compound are required to submit a new application. This new application will incur a fee of \$200.00 and a cheque to the "Collector of Public Monies, AQIS" for this amount should be forwarded with the application.

If you require any further information regarding this matter please refer to our website www.daff.gov.au/aqis/export/meat/elmer-3. Alternatively you may phone Dean Traynor on (02) 6272 4576 or Paul Smith on (02) 6272 5576 or Fax (02) 6272 5442.

Yours sincerely

Dean Traynor
